The Rotary Club of Ann Arbor — Celebrating its Centennial in 2016

Rotary is the largest service organization in the world. Rotarians have an all-encompassing belief in “Service Above Self.” The 325 members of our club—one of the largest in the world—are dedicated to our central mission of helping all children in Ann Arbor and Washtenaw County succeed!

This project is a continuation and expansion of the club’s work in our community. The club provides thousands of hours of support through mentoring youth, community beautification and providing more than \$150,000 annually in scholarships and grants. Members also donate generously to the Rotary Foundation in support of its good works around the world, notably in the eradication of polio.

The Rotary Club of Ann Arbor is looking forward to contributing something special, lasting and unique to the City as we celebrate our first hundred years of service to the community. We are committed to creating the first Universal Access Playground in a public park in Washtenaw County. We have the full support and backing of the City of Ann Arbor Parks Advisory Commission and the Commission on Disabilities Issues. Planning is under way with the target date for a grand opening to coincide with the club’s centennial on October 1, 2016.

The Impact of a Universal Access Playground on Our Children and Community

Universal Access Playgrounds go a step further than those that meet the basic requirements of the Americans with Disabilities Act. For example, ramps are wide enough for children to remain in their wheelchairs and maneuver through the playscape. The surrounding surface is soft enough to cushion a fall, yet firm enough to support mobility aids. As a result, children with disabilities have the opportunity to gain

a sense of self confidence and individuality. In turn, it gives children with and without disabilities the chance to play together, promoting social interaction. Additionally, it provides parents with disabilities the opportunity to comfortably take their children to a playground where they can supervise and interact as never before.

Our Centennial Commitment and Legacy Vision

In addition to creating the opportunity for all children to succeed, we desire to do more! We envision harnessing the creativity and leadership talent in our club and community to move forward the development and construction of state-of-the-art universal access playgrounds in other locations. This will not only help our children today, but create a new model that will help our children and children in other communities who deserve the opportunity to play together.

PAYMENT INFORMATION

MY TOTAL CAMPAIGN GIFT IS:

\$ _____

CONTACT INFORMATION

Name _____

Address _____

City _____ State ____ Zip _____
